

A: What your proposing is exactly the way a classic Installshield (EI) would do it. This is what you want and it is exactly what you ask for. You have some questions in your question about the WIX (Windows Installer XML) way to do this. There is a lot of hype about WIX these days but for a simple purpose this is all you need. In most of the cases you won't even need to learn WIX or anything else. You can find some good tutorials here and here And an extensive guide to WIX here Q: React Native: Show and hide listView of Flatlist I am trying to show/hide a listView based on a boolean in state. I have a state : constructor(props) { super(props); this.state = { isFlatList: false, emptyList:false, items: [] }; } And a Flatlist: { return ( {item.name} {item.price}
