I really like the contrast, and I like the fact that you can easily change the theme color, change it up and get that eye-catching look. My favorite part is the fact that I was able to find a dock folder icon that I can put into my dock and/or desktop! I wanted to make sure that my dock was better than the other docks in my computer. I did this by downloading this package. I love that I can customize my own theme. I love that I can change the color of my dock and background. This has a huge impact on my appearance.
