:.Hospital 2 Looking for a fun hospital room to encourage spirited play? Then this hospital will suit you very well. This room is a fun, jazzy one, full of music and chaos. With a number of padded walls surrounding it, this room is a great alternative to the normal hospital room that often lacks a little spunk. As with the neonatal room, this room does not have a real-time clock, but if you are okay with it, you can set an appropriate time for your young one to be asleep before the other players arrive. Make sure to turn off your baby's music to enjoy a clearer, more silent environment. Recommended games include Quiet, Calm, Sleep, and Undressed. Build it! Share your experiences! Have your own hospital room? Tell us what it looks like.

We'd love to see them! Talk to us If you want to chat about this hospital room, the game, or the community, you can add comments below. Make it a better experience for everyone The Pelican Room is currently being updated for the General Store update.Q: How do I
