

# The Ultimate School Search Engine for Parents in India

India's number one school search engine Skoodos is here to assist the parents

Skoodos simplifies admission procedures and provides parents and students with a stress-free experience on the go. It is the best platform for bridging the gap between schools and students, making the best institutions reach the right candidates and vice versa.

Skoodos believes in finding the right educational institution for young people by making it easy. "Education is one of the most basic products for humans allowing them to grow through knowledge and explore the Universe."

Parents have a tough fight when it comes to choosing the best school for their children as the advisors are neither qualified nor there are real-time parameters on which feature is required for each child. Skoodos is here to share the right features along with the right way of searching, comparing, and selecting the school for your child.

Skoodos, an all-in-one school search aggregator, allows parents to select their preferred schools based on ratings, Comparisons, and reviews. The number one search engine that benefits parents in finding the school for their children.

Skoodos simplifies admission procedures and provides parents and students with a stress-free experience on the go. It is the best platform for bridging the gap between schools and students, making the best institutions reach the right candidates and vice versa.

There are several schools, and no one platform has been able to assist parents in the time-consuming process of choosing the best school for their children. Skoodos also

emphasizes the range of needs that most parents overlook while choosing the best school for their children.

An online platform that can list schools that boost parents' choice for the best school for their child while ensuring that all registered schools have the opportunity to introduce themselves equally.

Skoodos goes one step further, Dr. Siya Seth, Founder, and CEO of Skoodos said “ One platform provides parents with thousands of options to assist their kids to sit at home and decide which organization is right for them. Our marketing strategy has allowed us to reach heights and connect with different parts of the country. We are pleased to be able to bridge the gap and support it with the best available organizations. ”

With the rapid evolution of new technologies such as industrial robots, artificial intelligence, and machine learning, the economy is betting on digitization. Therefore, startups and other giants must sometimes improve their technology. Skoodos also offers 360-degree marketing solutions for schools to succeed in crowded markets.

This website simplifies the process of comparing institutions by providing comprehensive information that allows users to choose the best option from a wide range of choices. Parents can filter schools by amenities, distance, affiliation, lesson structure, and other factors to find the one that works best for their child. Schools can now enroll in Skoodos by submitting information to [enroll@skoodos.com](mailto:enroll@skoodos.com).

Shruti Verma (Co-Founder), Skoodos said “Working parents may now sit and find the best institutions for their children at Skoodos, an all-in-one school search aggregator. She also added that the app assisted a lot of people to connect with their preferred schools and choose the ideal career path for them. We assist parents to connect emotionally through our service.
